

Cure for COVID

There is a cure for COVID. It is Hydroxychloroquine and Zinc. You don't have to close your church. You don't have to wear a mask. You do have to stand up for the children of GOD. If you don't stand up for GODs children, GOD will not stand up for you in the judgement. You can't be lukewarm on this one.

GODs children are being deceived. Gods children are being poisoned. Gods children are being sterilized. GODs children are being murdered. Where is GODs church? You have to become GODs church. You have to get this information out. It is being suppressed.

President Trump is taking Hydroxychloroquine but I do not know why it has been banned in 49 states, and censored on the media. Big Pharma is pushing a "vaccine" for COVID, but this vaccine will not prevent you from getting COVID or cure you if you have it. In fact, it is not even a vaccine but a mRNA experimental drug that will damage your DNA. Millions of Americans are being denied medical treatment during a pandemic by banning Hydroxychloroquine.
