

Kathern Austin Fitts - former deputy Secretary of HUD – says:

### **GET READY FOR THE MARK OF THE BEAST**

“The Central bankers are developing a new system that will end all currencies and switch to a digital transaction/tracking system.” (Mark of the Beast)

“This is a smart grid slavery system.” “Financial Coup d'état”

There are four pillars to the system:

1. Operation Warp Speed
2. Cloud computing system
3. Big Pharma Vaccines
4. Big Agriculture Genetically modified food.

“The head of Operation warp speed is an expert on injectable brain machine interface.”

“We have been put in a trap this year but the door has not shut.”

“Bill Gates is trying to download an operating system for your body.”

These 3 military cloud systems institute a complete political and economic slave control system.

1. DOD Jedi cloud contract to Microsoft
2. CIA and other intelligence agencies cloud contract Amazon
3. [Navy- Leidos cloud contract](#)

“You can't undo the secrecy because the criminal liabilities and number of criminals are too enormous.”

“Middle of the road is gone you have to choose a side.”

### **(disaster capitalism)**

“34 of 37 cities with riots have FED banks”

“Riots occurred in opportunity Zones to reduce property values for real estate acquisition.”

“this makes building out the smart control grid around the Fed banks much cheaper”

“49% of small business will go out of business this year”

“Our real global government system is a mystery”

“it is amazing that we don't demand to know how the government system works”

“If they do everything with robots then we don't need humans anymore”

“We are talking about a trans-human slavery system and most of us have been unknowingly supporting it, financing it and building it.”

“We are building the prison and we are financing the prison so we have the power to stop it”

“We will have to build the economy from the bottom up if we want to decentralize this”

“if tomorrow everyone woke up and stopped banking at JPMorgan chase and stopped shopping at amazon and supporting other globalist corporations, we could stop this.”

“It is not them it is us”

“You are either for a human system or the end of humanity”

“Stop building the trans-human system”

First You have to get a good map “[State of our Currencies](#)”

1. Don't help DOD build warp speed
2. Don't help Big-tech inject nano particles into your body and hook them up to the cloud (COVID vaccine)
3. Don't help big pharma make poisons and inject them into your children (Vaccines)
4. Don't help big agriculture make GMO food
5. Don't help government with COVID institute disaster capitalism that is making the big guys rich and destroying small business.
