

Dear Mr. Trump (17days out)

I voted for you and supported you financially in 2016 but now. I predict that you will lose the election, you will go down in history as the worse single term president in the history of this nation. The one who presided over the destruction of this republic. Your global financial empire will go bankrupt and some your children may even commit suicide. You will be ruined. Here is why.

You are arrogant, naive, and Stupid. You have not arrested a single criminal Obama or Hillary or Biden as you promised to do 4 years ago. You threw everyone responsible for electing you under the bus. Alex Jones, Rodger Stone, Manafort, Julian Assange. You only appointed swamp creatures and goblins to your cabinet. They have you locked in a fake reality bubble. After 4 years you still do not have control of the DOJ, FBI, CIA, or NSA. You cannot even declassify a single document. Barr, Wray and the IG are deep state cover-up specialist. You did nothing about the Fake News Media and allowed them to trash you with lies for 4 years. Over half of America thinks you are a racist, white supremacist, womanizing, NAZI, Russian agent. The country is on the brink of a totally unnecessary violent civil war over FAKE NEWS only. Millions could die. You did nothing about Big Tech abuse of their monopoly on information and allowed your supporters to be censored, shadow banned, de-monetized, de-platformed and even refused payment processing. Big tech is now censoring publishers the government and doctors. You did nothing to investigate Fauci and Gates for developing and patenting this bioweapon. You suppressed the cure for COVID, HCQ and zinc and thousands died. Every time you mentioned supplying ventilators, we all cringed knowing that ventilators were being used to murder people with COVID. You are now pushing a COVID vaccine which is not even a vaccine but an experimental mRNA drug that damages your DNA destroys your genetic history sterilizes you and makes you extinct. It doesn't even keep you from getting COVID or cure you if you have it and 20% of the people who take the vaccine will be permanently disabled or die. To allegedly stop a virus that only kills .2% of the people who get it. And to top it all off you say you will use the military to distribute this killer vaccine. It is not a coincidence that you just lost 20% of your base and the vaccine will kill 20% of the people.

The silent majority elected you in 2016 and will defeat you in 2020. I do not know anyone that will vote for a president pushing a deadly vaccine. Of course, we will not tell anyone this. I estimate that 20% of your base will not vote for you. They will not vote for Joe Biden either. But this is all it will take to allow a Biden victory. Even without fraud. There are 18 Biden signs and one trump sign on my street. This is pretty consistent in my Town. Your only hope is to arrest Hillary or Obama or Biden or somebody – anybody before this election. DR. Steve Pieczenik agrees with me.

Ps. Many times, in the Bible people announce their own destruction with their own lips. I heard you say in your speech today that if you lost to Joe Biden that you will lose to the worse candidate in the history of the U.S.

I agree you will lose to the worse candidate in the history of the world. A corrupt demented pedophile Satanist who can not even form a sentence and doesn't even know what planet he is on or what office he is running for.

Dear Mr. Trump; (Double Down 14 days out)

If you do not put the criminals in jail before the election, they will put you in jail after the election. It will be a [Nuremberg style trial](#) the charges will be crimes against humanity. You will be convicted of suppressing the cure for COVID, murdering victims with ventilators, and causing a fake [plan-demic](#) that caused millions to starve and millions of small businesses to go bankrupt devastating the world economy for decades.

You had better get out in front of this BIG one.

Everyone needs to join and support this court case.

COVID largest crime against humanity in the history of the world.

You think that these rallies are what got you elected last time. They are not. You threw the people that got you elected under the Bus. You arrogant fool. These people at the rallies will vote for you no matter what. The people voting for Biden did not even see your rally. The people voting for Biden only saw that the Russians are interfering with the election again and put out a fake Hunter Biden laptop. Are you so naive that you think that the AI does not know who your supporters are and who they are not? Your non-supporters will never see your rally or your speeches or anything but the fact that you are a racist, NAZA, white supremacist. They will never see the truth because you did nothing about big tech censorship or fake news media. You are down in the polls. You will be convicted of crimes against humanity.
