

Self-replicating nano-tech bio-weapon

The only thing worse than bringing a knife to a gun fight is bringing a gun to a genetic bioweapon fight. Don't get me wrong I have guns and I know how to use them. They are required for self defense. BUT: Guns are useless against a Self-replicating nano-tech bio-weapon. Which, is what we are facing. Everyone who took the Jab (marketed by the MSM as the Corona-Virus-Vaccine) will die in less than two years. This lethal injection gets past your cells defenses and changes your DNA. Billions of years of genetic history whipped out with a single injection.

Once injected you are now no longer human but some kind of human/alien chimera. By alien I mean not created by GOD. You were made in the image and likeness of GOD but, now you have been remade in the image of "____". You have also been sterilized. Even if you could have children, they would not be your children but the children of the image "____". Your cells have also been reprogrammed to manufacture variants of the virus also known as spike protein. This is the self-replicating function. You can now sterilize your grand children or cause your pregnant daughter to mis-carry just by hugging them.

The Churches, corporation's, legal system and government have all sold out to the system. It is easy to sell out and wide is the path to destruction. All you have to do is buy an I-phone and shop on Amazon.com. Real Christians are in Chinese slave labor camps making i-phones for fake Christians. This is a Luciferin, anti human, anti god system bent on the destruction of GOD's creation.

If the Legal system could be fixed and the criminals arrested a more deadly bioweapon release would be triggered destroying humanity including the criminals. When all seems, hopeless GOD intervenes.

This is a test of your immortal soul. Don't fail the test. Repent. Come out of the system, and help others.

The bible says, John10:10

The thief cometh not, but for to steal, **and to kill, and to destroy**

Now you know the meaning of destroy.
